Table 1: BLUE's of the combination ( $\chi^2/\text{ndof} = 27.42/24$ ). Values /1k are displayed. For each input measurement i, the central value weight CVW or  $\lambda_i^{\alpha}$  with which that measurement contributes to the BLUE for observable  $\alpha$  is listed.

Table 16: Partial input covariance between measurements. Error source #4: LUEC. Values /1M are displayed.

## Appendix A1. Input data.

```
# The file is expected to have the following format.
   # Blank lines and lines with only empty spaces are ignored.
   # Lines starting by '#' are reserved for comments and are ignored.
   # Data lines are composed of fields separated by one or more empty spaces.
   # Fields cannot contain empty spaces, with the exception of the title line.
   # The next line must have 2 fields: 'TITLE' and the title of the
12 # BlueFin combination, which must be enclosed within double quotes
   # and may contain only alphanumeric characters or spaces or hyphens.
   TITLE "LEP2 WW cross sections"
   # The next line must have 2 fields: 'NOBS' and the number of observables.
   NOBS 8
18
19
   # The next line must have 2 fields: 'NMEA' and the number of measurements.
   NMEA 32
20
21
   # The next line must have 2 fields: 'NERR' and the number of error sources.
23
   NERR 5
24
25
   # The next NERR+3 lines must have NMEA+1 fields in this format:
   # - in the 1st line: 'MEANAME' followed by NMEA distinct measurement names
       (measurement names may contain only alphanumeric characters or spaces);
   # - in the 2nd line: 'OBSNAME' followed by the NMEA names (with NOBS distinct
29
       values) of the observables measured by the corresponding measurements
       (observable names may contain only alphanumeric characters or spaces
       and should preferably be at most 3 characters long);
32 | # - in the 3rd line: 'MEAVAL' followed by the NMEA measured central values;
33 | # - in each of the last NERR lines: the error source name followed by the
       NMEA partial errors for each measurement due to the given error source
      (error source names may contain only alphanumeric characters or spaces).
